CUSTOM RIFLES, PISTOLS,
PARTS AND ACCESSORIES

## Table of Contents

All prices, configurations and specifications subject to change without notice.

## The Assault Weapon Ban

The Federal Assault Weapon Ban (AWB) of 1994 created two tiers of semi-automatic rifles. Those assembled prior to the passage of the law are classified as pre-ban, and those assembled after the passage are classified as post-ban. All RRA rifles are post-ban, and have limits placed on their available configuration by the AWB. They may not be assembled with collapsing/telescoping stocks, bayonet lugs, flash hiders, or non-BATF approved muzzle brakes.

Pre-ban configured upper halves are sold as replacements for existing pre-ban rifles. They may not legally be installed on post-ban lower halves. Contact the manufacturer of any lower half to establish its pre- or post-ban status if any question exists.

Law enforcement and certain governmental agencies may purchase post-ban rifles with pre-ban features if they meet specific criteria established by the AWB. If you represent an agency qualified for such purchases, please contact Rock River Arms for additional information and pricing.

## RRA Warranty Information

Rock River Arms offers the following warranties on its products:

**Complete Rifles, Upper Halves, and Lower Halves** carry a Limited Lifetime Warranty against failure of factory parts and labor.

**Complete Custom Pistols** carry a One Year Limited Warranty against failure of factory parts or labor.

If you have any questions concerning the warranty on your RRA rifle, upper or lower half, or pistol, please call RRA for clarification.

### Rock River Arms LAR-15 DEA Model

**Available in Law Enforcement and civilian models, call for additional information and pricing.**

# RRA CUSTOM PISTOLS

# What's a Wylde Chamber?

The .223 Wylde chamber was designed as a match chambering for semi-automatic rifles. It will accommodate both .223 Remington and 5.56mm NATO ammunition. It is relieved in the case body to aid in extraction and features a shorter throat for improved accuracy.

# Varmint

**Two Stage Trigger Standard!**

## *Available with optional* EOP - Elevated Optical Platform *Upper*

1″ taller mounting platform than the standard A4 upper receiver.
Varmint riles also available with standard A4 Upper Receiver

## NM Two Stage Trigger Kit

AR0093NMK. . . . . . . . . . . . **$120**

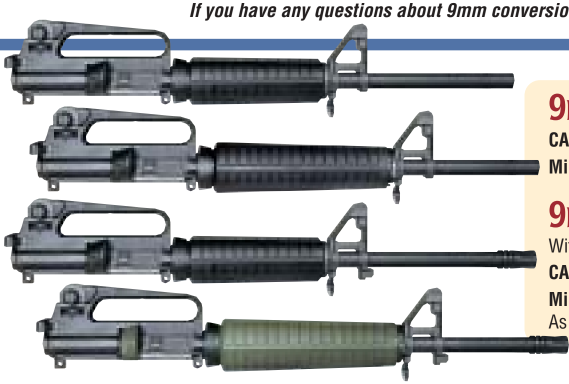

## M&D DCM Rear Balance Wedge

**3.5 pounds** . RFLEWTRR **$20**

**All RRA 9mm Upper Halves include the bolt carrier group and charging handle assembly**. In addition to the upper half, certain other parts are required to complete the 9mm conversion. A lower half with standard (non match/2-stage) internal parts is required, and a 9mm hammer must be installed in place of the .223 hammer. The 9mm magwell conversion block (which uses modified Uzi magazines or Colt-style SMG magazines) is also required. If using a CAR length receiver extension (as used in RRA pre-ban collapsible CAR and A4 stocks as well as entry tactical stocks), the 9mm buffer replaces the CAR buffer. If using the standard receiver extension (as used in A1/A2 stocks and RRA post-ban non-collapsible CAR stocks), installation of the 9mm stock spacer, CAR action spring, and 9mm buffer is required.

***If you have any questions about 9mm conversions, please call RRA.***

## 9mm CAR A2 - Post-Ban

CAR Handguard . . . . . . . . . . . 9MM0500B **$450**
